PROFESSIONAL BACKGROUND & EXPERIENCE

Bill's expertise is in executive management and construction and mining contracting; civil, mining and mechanical engineering; building and waste management. He has extensive experience with all forms of contracting and contract delivery and with major international joint ventures and alliances. He has worked both in Australia and throughout Asia, India and the Middle East and has a detailed knowledge of the Australian and international contracting industry and its participants.

After nearly 40 years in the industry, Bill is a recognized leader, having been deputy CEO of the largest contracting organisation in Australia and headed up major contracting businesses and joint ventures and alliances with distinction and success. Bill has had a particular interest in construction industry safety and has contributed to some of the significant achievements made in the industry over recent years.
