

The Client

Major Projects Victoria

PPP Project under the Partnerships Victoria delivery model

The Project

Development of 19 Ha Royal Melbourne Showground area and facilities including:

- 19 buildings
- Complete upgrade of the site facilities and services

Flagstaff acted as the State representative and provided technical and project management advice services

The Challenge

- Flexible, multi-use precinct for a wide variety of uses and applications
- Manage site remediation from existing facility use including sheep dips, tar pits, asbestos, oil and petrochemical
- Endorsement and approval process of design by operator
- Demountable equipment design and procurement for livestock and accommodation facilities for the Royal Melbourne Show

The Outcome

- Project delivered to satisfaction of the stakeholders
- Site remediation work and environmental clearances successfully managed
