

### The Client

**BHP Billiton Mitsubishi Alliance**

### The Assignment

Prepare contract documents for the engagement of Bechtel as EPCM contractor for the Caval Ridge mine development.

### The Challenge

- Engage with the project director and the area managers for the project to fully understand the contract objectives;
- Capture and define the entire scope of the works to be performed by the EPCM contractor;
- Draft documents giving BMA rights to interrogate when they require;
- Ensure commonality and consistency with other BMA contracts to facilitate personnel transfers and minimise familiarisation requirements;
- Complete the assignment within the required schedule and for the pre-determined and agreed budget.

### The Outcome

- Contract form derived to balance between corporate standardisation and particular project requirements;
- Budget and schedule achieved;
- Full suite of interviews conducted with the contract's future users and where possible, their requirements were captured; where not the reasons were explained.
