

Steve is a qualified civil engineer and experienced executive with over 30 years' experience in delivery of major infrastructure & building projects. His experience spans the breadth of the project development cycle, from feasibility, through procurement, delivery and post completion review. Steve is familiar with many types of delivery models in use by both private and public sectors Owners and he has a passion for unlocking value through excellence in procurement.

Commencing his career with a major UK Engineering company, Steve moved to Australia in 1995 and enjoyed influential roles in major contracting companies in Queensland as Civil Manager, General Manager and Chief Operating Officer. He has represented the entire infrastructure and contracting sectors in Queensland through high profile roles with both the QMCA and IAQ.

Steve is also an experienced Gateway Reviewer and Dispute Avoidance Board practitioner and is experienced in the conduct of Assurance Reviews for Government agencies and Government Owned Corporations. His portfolio includes assignments for both Owners, Contractors, Legal and Commercial companies.
